

Take A Leap Forward - Leave Paper Behind

Digital O&M Document and Asset Management solutions

When you require: Efficient, effective compilation of all construction project documentation

C Projects

Grazer's C Projects solution delivers:

- A secure central web portal for all contractors to collate O&M data
- Easy reporting: view and approve data online
- Compile all operations and maintenance information in digital formats
- No need to produce printed manuals.

"Using a web based service to collate and review whole of project O&M documentation just makes sense. We know what information we have and what we still need. We can easily link payments to supply of data and avoid delays at practical completion"

Tony Jachmann, Project Manager, Built Environs

When you require: Handover documentation for ongoing asset Operation and Maintenance

C Manuals

Grazer's C Manuals systems deliver:

- Digital O&M handover solutions providing data and viewer
- Data collated throughout construction for a hassle-free handover
- An alternative to printed manuals (but printing some anyway is an option)
- Building User Guides, Green Star Submission services

"I have no hesitation confirming the advantages of the Grazer system for secure storage and ease of retrieval/ reference for large quantities of technical information. The Grazer system is now an every day tool for FMC staff (management and trades) to access technical information."

C.J Ford, Director, Flinders Medical Centre

When you require: A system which assists management throughout an asset's life cycle

C Suite

Grazer digitally enables you with:

- Effective tools for facility and asset managers
- World leading document management solution
- Asset management and maintenance planning
- Financial reporting and forecasting

"Our operators have calculated that the cost of Grazer was recouped in less than twelve (12) months and regard Grazer as 'a valuable tool in managing and maintaining the complex'"

M Bullen, GM, Federation Square
